EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was not required since this correction is due to a typographical error.

1. The application has been amended as follows:

IN THE CLAIMS:

Claim 1, line 2, where it says "...terminal in connected;", the Examiner has replaced "...**in**..." with "--...is...--".

2. Other amendments, dated 5/25/2001, to Abstract, Title and Specification have been entered as requested.

Reasons for Allowance

3. Claims 1-72 are allowed over prior art of record.

The following is an examiner's statement of reasons for allowance:

The present invention relates to using broadband transport for narrowband telephony and data communications in an ATM switching. The closest prior art, Allen Jr. et al. (US 6,169,735) and Doshi et al. (US 5,568,475) alone or in combination, fails to disclose the inventive features of “ transporting call set up signal from a synchronous transfer node over an ATM connection in the hybrid network (claims 1, 15), the second node, having connection control functionality adapted to rely on first node, provides call control functions (claims 29, 38, 42, 45, 51, 58 and 62).”

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Afsar M. Qureshi whose telephone number is (571) 272 3178. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chi Pham can be reached on (571) 272 3179.
